WILSON RESIGNS

Assistant Secretary of State in Open Break With Administration on Chinese Loans

Washington, Mar 20,-Huntington Wilson, assistant and acting secreance of the resignation because of his radical difference of opinion with the the present date. administration regarding its Chinese

tendered his resignation as a matter of form to President Wilson directly the latter's assumption of office. Mr. Wilson was requested to continue his place until it should be convenient for the president to name his succensor and consented to do so to accommodate Secretary Bryan in his desire to make his political visit to Lincoln, Neb., so this involved the abandonment of reservation which he had made on a steamship sailing for

Europe last Tuesday.

The issue of the statement from the White House defining the admin-Istration's attitude regarding the Chinese loan negotiations is believed to have been regarded by Assistant Secretary Wilson as sufficient to justify him in requesting to be relieved

at once from duty Secretary Bryan Notified. After telegraphic notice to Mr. Bryan of his intentions, Mr. Wilson

late yesterday afternoon dispatched a note to the White House terminating his own services and President Wilson immediately designated Second secretary of state during Mr. Bryan's

A probable result of the resignation will be the immediate appointment under a recess commission of John Bassett Moore as counsellor of the state to act as secretary of state.

In a thousand word letter to Pres tdent Wilson, the former acting secretary of state set forth that when he consented to continue for a time with the new administration he did not understand there were to be any radical changes of policy for which he would be called on to act as spokesman. The letter continued in part

Newspapers Notified First. 'I had no reason to suppose that the officials on duty in the department of state would learn first from the newspapers of a declaration of policy which I think shows on its face the inadequacy of the consideration given to the facts and theories in-volved and the failure clearly to apprehend the motives leading to and the purpose of the policy superseded. I had no reason to suppose that the fate of negotiations which had so long had the studious attention of the for eign offices of six great powers would ment of commerce. be abruptly terminated with such unnecessary haste and in so unusual a manner. The methods, against which I respectfully protest are the very extraordinary circumstances which feel vitate my understanding with Mr.

The repeated utterances of the last administration must have made it perfectly clear that the motive and purpose of the policy now abandoned were first and primarily the protection of China's integrity and sov-ereignity; the uplifting of the people, morally, and governmentally, the development of China's resources and the maintenance of our traditional policy of the 'open door,' or equality of opportunity for American enterprises. Precisely because of the ultimate possibility of a measure of for-eign control of China's finances, which may be inferred from a study of other countries which have found themselves in a similar situation it was deemed imperative that there no detriment to Kansas eggs, accordshould be American participation in ing to Dr. J. I have alvays thought that in the work of advancing the national interests and promoting the welfare of other na-ions, the financial force of the United States could be murshalled in some manner to present a safely united front abroad where it would be like the spex of a triangle, but would have at home its base broad equality of opportunity both for citiens desiring to invest and for bank ers desiring to engage in these difficult ventures. It seems however, that the conclusions reached are expressed upon other grounds.

Not until such knowledge and skill are acquired, says General Macomb, in his annual report, made public today, "can the infantry stationed in Aahu be considered truly efficient. On account of the large number of recruits in both regiments and the comparatively recent arrival of one of them, these troops at this writing have much to learn to bring them to the state of efficiency desired.

The fact of being stationed prac tically on the terrain over which they will be required to operate in time of war gives the local troops an op-portunity to gain an advantage over an enemy should not be lost.

"Therefore instruction for the infantry is being conducted along lines leading to that end, namely, marching, study of terrain, field firing and use of the bayonet."

General Macomb declared that cent inspections indicate that sufficient importance has not been given instruction in bayonet exercises. He proposes to remedy the defect.

Washington, Mar. 20.—Relations are strained between the Cuban govern-ment and the people of the Isle of furnished the railroads calls for data ment and the people of the Isle of Pines as the result of the failure of the United States and Cuba to come to some agreement as to sovereignty over the island. Under the treaty of Paris, which concluded the Spanish-American war, the question of sovcreignty was to be arranged by treaty between the two countries. In the fifteen years that have elapsed since the outbreak of the Spanish-American war three unsuccessful attempts have been made to secure such a treaty.

The five thousand American inhab-itants of the Isle of Pines petitioned the Taft administration to leave the incoming administration free to dea with the demand they are now making for attachment to the United States. The movement has greatly irritated the Cuban people and the anti-Amer ican press affects to find to a sinis ter and ulterior motive in the recent visit to the Isle of Pines of Mr. Bryan as well as a coincidence in the comparatively recent transfer to Havana of Mr. Beaupre who was American minister at Panama at the time of its separation from Colombia
